List of Required Documents

- Student Loan Company Schedule letter of accrued debt (if applicable)
- Copy of Career Development Loan (if applicable)
- Copy of 3 months bank/building society statements for each account held
- Copy of 3 months of credit card statements
- Evidence of rent/mortgage
- Evidence of benefits claimed

Supporting documentation relating to income, appropriate to circumstances:

- If your household will be contributing to your studies, we require evidence of the household income, ie: a P60 (where work is being undertaken in the UK), an annual accountant's statement, a copy of your employment contract or letter from your employer, or a tax return summary. If you have personal income, ie: from employment or the letting of a property, we also require evidence of this.
- Provide us with your expected total net income (after tax) during the 12 months immediately preceding the start of your programme (September 2018 - September 2019). This will need to be an intelligent estimate, especially if you are planning to change jobs, obtain a new job (including summer vacation work), or undertake voluntary work or travel before beginning your master's programme. Only you can make a realistic estimate and we understand that circumstances can change. It also does not have to be income from work, if you are living off another source of income such as contributions from parents or a spouse, a pension or savings, this income should be included.

Conditions:

- Your chances of securing an award will increase if you provide as much information as possible about your individual financial situation.
- Applicants found to be concealing information or being dishonest will have their applications disqualified.
- Attempts to secure financial support from other sources to meet the remaining costs associated with the period of study are viewed very favourably. This can include postgraduate or career development loans.
- As with all students, scholarship recipients' academic performance at CE will be monitored closely.
